

# How to Enroll in a Wellbeats Challenge Guide

For Wellbeats Streaming Users

**Wellbeats™**

## What is a Wellbeats challenge?

A Wellbeats challenge is the best way to stay accountable, track progress, and establish a fitness routine. Wellbeats challenges feature a day-by-day schedule of Wellbeats classes and/or non-Wellbeats wellbeing activities to achieve a goal within a set period of time.

Wellbeats creates system-wide challenges that are accessible to all streaming users. Your affiliated organization or employer may also create company-wide challenges that are available to your population.

There are several benefits to enrolling in a challenge, including:

- **Personalization** – When you fill out the Wellbeats Fitness Profile Questionnaire (available in the main menu under Edit Profile > Edit Fitness Profile), you will receive recommended challenges based on your goals and personal preferences
- **Community** – Challenges are a great way to engage with like-minded individuals with common interests and goals
- **Reliability** – Challenges eliminate the time and guesswork of choosing a workout
- **Accountability** – Challenges provide notification reminders\* and an easy way to track your workout progress
- **Seasonality** – Wellbeats releases new challenges periodically to accommodate workout goals and needs. If you have any suggestions for a Wellbeats challenge, fill out the Wellbeats Content Feedback survey here: <https://www.surveymonkey.com/r/GQP3W2Y>
