

How to Connect to a WiFi Network Guide

Vellbeats[™]

Step 1

Plug in a wired USB keyboard to your computer board. This must be a full-sized keyboard. Computer board locations may vary by device. Please see the image below to help locate yours.

Step 2

Press the Windows key on your keyboard (on the lower left-hand corner between the CRTL and ALT keys – see image below). A Windows menu will appear on the lower left corner of your touch-screen.

															16 2 21			KEYBOARD			
												: 1				$ \mathbf{r} $	=				
	۹			•													2				
		6 9 1															4				
	P							•												-	

Step 3

Select the "gear" Settings icon in the Windows menu on your touchscreen.

Step 4

Locate internet settings under "Network & Internet".

Step 5

Select "show available networks" and find your Wi-Fi network. Select your network and enter in your WiFi credentials if necessary.
